

A BIG MISTAKE!!!

Dear Kitsap County Board of Commissioners,
Hello my name is Karleigh Gomez. As an enrolled member of The Port Gamble Skallam Tribe I would be very upset if they made a city out of Port Gamble. Not only would it effect seafood harvesting, it would effect the future. Our children and grand-children would not be able to experience the Port Gamble Skallam Tribe's history of seafood harvesting. Our families have been living here for generations during that time this boy has a great deal of celebrations from birthday parties to the Annual Canoe Journey. If they put in a city across the water, what would become of our beloved bay. A marina = more chances of oil spills. A city = an increase of human population. A city = a decrease in animal population. So please rethink the idea of making a city out of Port Gamble.

Sincerely,

Karleigh Gomez
